

## Plasma Supplement for Supporting Gut, Lung, & Immune Health

## DESCRIPTION

Over 500 published studies support the benefits of orally-dosed plasma. LIFELINE®+ Equine supports a healthy immune response; keeps the digestive tract functioning properly and may help reduce the possibility of colic; may help ease occasional discomfort from training and travel; supports horses with seasonal allergies; and helps maintain normal lung pulmonary health. The benefits of plasma are accomplished by biologically active proteins communicating through the mucosal systems of the body.

LIFELINE®+ Equine supports total-body wellness through:

1. Enhanced lung function.
2. Helping support structural integrity of the lung tissue.
3. Enhanced gut function.
4. Keeping the digestive tract functioning properly which may help reduce the possibility of colic.
5. Supporting normal GI health and function.
6. Helping support structural integrity of the gut lining.
7. Enhanced immune function.
8. Promoting the body's innate resistance to pathogens.
9. Helping maintain a healthy pregnancy.
10. Providing factors important during reproduction and lactation.
11. Help maintain joint mobility.
12. Ease joint stiffness due to normal daily exercise and activity.
