

Free-Choice
Mineral for
Horses of All
Ages and
Classes

www.StrideAnimalHealth.com

DESCRIPTION

Element® is a loose mineral that supplies essential minerals and nutrients which help maintain the general health of all ages and breeds of horses. Element® can be offered free-choice or fed on top of feed. When feeding free-choice, loose salt can be added to influence consumption rates.

1. Horses on a hay-only or pasture-only diet.
2. Providing an economical way to balance basic vitamin and mineral requirements.
3. Providing daily electrolytes.

FEEDING DIRECTIONS

Offer Element® mineral free choice in a weather protected feeder or top dress on grain ration. Horses should consume 2 to 4 oz per day. Provide daily access to quality forage, fresh water, and plain white salt. Salt may be mixed with Element® in a 1:1 ratio to help limit intake if needed.

70cc scoop = 2 oz (not included in bulk bags)

NOTE: Element should not be fed in combination with 101 Diet Balancer, Nutrimix Plus, or Boost 'Em.

DO NOT FEED TO SHEEP OR COPPER SENSITIVE SPECIES.
