

Calming and  
Focus Aid  
for Horses

## DESCRIPTION

Engage promotes a sense of relaxation, focus, and mental alertness in horses without drowsiness. This proprietary formulation is unique from all other calming supplements on the market because it supports normal function of neurotransmitters in the brain, specifically serotonin and dopamine. Engage provides the following benefits:

1. Calming effect on the nerves.
2. Promotes relaxation.
3. Enhances brain function.
4. Helps horses cope with external stresses.
5. Helps maintain normal emotional balance.
6. Helps horses maintain a normal and relaxed disposition.
7. May help curb destructive behavior (such as during stall rest).
8. Supports behavior modification and training programs.
