

Intestinal Tight Junction Support for Horses

DESCRIPTION

GI Calm supports normal function of epithelial tight junctions that line the gut. GI Calm is ideal for supporting normal GI health and function in the face of normal stressors such as travel, training and performance.

1. Supports normal tight junction function in the gut.
2. Helps support structural integrity of the gut lining.
3. Enhanced gut function.
4. Supports normal GI health and function.
5. Enhances immune function.
6. Promotes the innate resistance to pathogens.
7. Keeps the digestive tract functioning properly which may help reduce the possibility of colic.
