

Natural Vitamin E
Antioxidant &
Immune System
Support For Horses

www.StrideAnimalHealth.com

DESCRIPTION

Vitamin E/C supports the immune system and provides powerful antioxidant protection by fighting free-radicals. This helps reduce oxidative stress and damage within the body and nervous system, and helps support cellular health. Antioxidants help protect body cells and tissues, and maintain normal DNA.

1. Support normal detoxification processes.
2. Support immune system function.
3. Aid in the elimination of unstable oxygen molecules.
4. Help reduce free radical damage.
5. Reduce oxidative stress.
6. Provide antioxidant protection.
7. Assist the body in combating environmental pollutants.
8. Support normal cellular health and function.
